NERCA Conducts Metro Sale This Month

There's a flurry of activity in the upstairs suite of offices. That's where New England Rare Coin Galleries' auction company, New England Rare Coin Auctions, is busily preparing for this month's annual Metropolitan New York Sale. Metro New York has long been one of numismatics' most prestigious events — and New England is proud to have been selected to conduct it for the past three years. This year, we'll be offering some very special coins: like an 1853 No Arrows Dime in MS-67; an 1807 Bust Quarter in MS-63; an 1889 Double Eagle in MS-67; and so many more. In all, over 1,300 lots. Hope to see you there: March 29-April 1 at the Barbizon-Plaza Hotel, 101 West 58th Street, New York City.

Immediately after Metro New York, NERCA will be making its final preparations for another highly prestigious auction event: the 1979 A.N.A. Auction (to be held in St. Louis from July 28-August 3). See NERCA President Lee J. Bellisario's special A.N.A. message to New England collectors in this issue of **Inventory Selections**.

We'd like to remind you that **Inventory Selections** is sent *free* for a full year (12 issues) to customers who order \$150 or more from New England's retail rare coin inventory. An order of \$275 or more entitles you to 2 free years.

Be sure to examine the special highlight coins in this month's color pull-out section. These beautiful numismatic specimens represent some of our finest rare coin values.

EARLY HALF DIMES

1794, PROOF-65, FULL STRIKE. V-3. A gorgeous coin with full, unmarred proof surfaces beneath handsome steel-gray and blue-green toning. Full denticles on both sides. Nearly superb quality, and as obviously an intentional proof striking as any pre-1860 Seated Half Dime we've seen. No adjustment marks or noteworthy impairments. Very possibly the first regular issue silver coin struck by the United States government! A coin of exquisite quality and rarity, and one with virtually unlimited potential. Realistic at 30,000.00

1800, MS-63. A frosty jewel, and relatively well struck for the type. Underrated in choice condition. 7,500.00

1801, AU-50, USUAL STRIKE. Lustrous and basically well struck except for the central portion. Choice and defect-free. Scott's says, "Unknown in UNC., extremely rare in EF." An undervalued date. 1,950.00

Numismatic history today:

The 1866 No Motto Silver Dollar

Mystery, thievery and celebrities surround what may be the world's most valuable coin.

One of the most fascinating — and, perhaps, *the* most valuable — of all coins is the 1866 No Motto Silver Dollar. Experts estimate its current worth at upwards of \$500,000. And only one specimen is known to exist freely in the entire numismatic world.

That specimen is now at New England Rare Coin Galleries. How it came into being and why it is so highly valued today is an intriguing slice of American numismatic history.

The Minting of the No Motto: A Numismatic Mystery.

The year was 1866. The end of the Civil War. American soldiers, both Union and Confederate, lined the country's dusty roads in a slow, weary march home. Southerners would soon face the poverty and corruption of the Reconstruction Era, while Northern veterans would return home to find booming commercial prosperity. Everywhere, the Industrial Revolution had begun changing America's way of life.

Against this dynamic backdrop, the United States Government began recalling the flood of "greenbacks" that had originally been circulated to finance Lincoln's war effort. With post-war

inflation rising, paper money was a danger. What the new American economy needed now was a stable foundation — and only greater reliance on gold and silver coinage could supply that.

So it was that, early in 1866, the U.S. Mint began producing thousands of double eagles, eagles, half eagles, silver dollars, half dollars and quarters. Each coin was supposed to have featured the country's new motto, "In God We Trust." However, two varieties of coins were minted without this motto.

The first type consisted of "transitional pieces" (coins minted for and released into public circulation during a year when a design change was supposed to have occurred — but which did not carry that change). These were produced by the San Francisco Mint, and several are now in the hands of collectors. They exist in denominations of \$20, \$10, \$5 and 50¢.

The other type of 1866 No Motto coin is a numismatic mystery. All that is known about the coins with any certainty is that there were four of them (2 dollars, 1 half dollar and one quarter), and that they were never released into general circulation. Experts now affirm that these coins were produced in the Philadelphia Mint. However, why and how they were produced has never been adequately explained.

The 1866 Seated Dollar reverse with motto.

The Lineage: Historic Owners

The four 1866 mystery coins first appeared in F.C.C. Boyd's famous numismatic collection. Since then, they've been owned by a virtual *Who's Who* of numismatic history. The list includes Colonel E.H.R. Green (son of Hetty Green, the infamous "Witch of Wall Street"); King Farouk of Egypt; Samuel Wolfson; Charles Jay and Winner Delp.

Attempts to solve the 1866 No Motto mystery have consistently failed. At first, numismatic experts speculated that the coins might be "patterns" (coins struck by the Mint solely for the purpose of experimenting with a design). More recently, they have also been incorrectly labeled as "transitional."

However, modern experts agree that neither of these designations accurately describes the 1866 Philadelphia No Mottos. These coins are currently thought of as "fantasy" coins — pieces whose origins have no official explanation. Often, such coins were struck clandestinely — and illegally — by mint employees to satisfy a wealthy collector's whim. Other famous fantasies include the 1913 Liberty Head Nickel (5 known), one specimen of which recently brought a dealer \$200,000; and the 1804 Silver Dollar (15 known), one of which was recently sold for a reported \$225,000.

New England's Specimen: Unique

New England's specimen of the 1866 No Motto Silver Dollar is far rarer than either of the other famous fantasy coins mentioned above. With only two reported specimens in existence, the 1866 No Motto is 2½ times as rare as the 1913 Liberty Head Nickel and 7 times rarer than the 1804 Silver Dollar.

And these figures do not reflect the fact that *only* New England's specimen of the 1866 No Motto Silver Dollar now freely exists in the numismatic world. The other three 1866 No Motto coins were stolen from the DuPont Family collection over a decade ago. They have never been recovered.

Currently, New England has no plans to sell the 1866 No Motto Silver Dollar. However, we haven't taken it out of "collector circulation." Plans are underway to display the 1866 No Motto at selected museums and shows around the country. In this way, the mystery and historical significance of the 1866 No Motto Silver Dollar can be enjoyed by as many numismatic enthusiasts as possible.

Market Report

by Tim LaPointe

Gold is back in the spotlight this month. At coin shows from coast to coast, we've seen high-grade gold coinage trading hands with stunning rapidity. It seems that *any* gold piece in MS-65 will trade hands at least twice during a given show — and each time it trades, its price climbs higher.

At the recent Suburban Washington D.C. Show, for example, some particularly noteworthy prices were realized for high-grade gold. A nearly perfect 1853 Gold Dollar (Type One) traded hands between dealers for a record \$3,000. New England numismatists sold a 1906 Liberty Head Double Eagle in MS-65 for \$2,000 — after which we were promptly reprimanded by a dealer who wanted to offer us more than \$2,000 for the coin.

Gold has also been strong at auction this month. At the Bareford Sale, held by Stack's, a 1933 Indian Head Eagle graded MS-63 (and cataloging at \$40,000) sold for \$92,500. And at the recent Robison Sale, an 1874-CC Liberty Head Half Eagle graded MS-60 (cataloging at \$1,600) sold for an incredible \$19,000. With auction enthusiasm this high, NERCA's Metropolitan New York Sale (to be held later this month) should be fascinating to watch.

Silver, too, has been strong this month. From a mid-February high of \$6.59 per ounce, silver rose to over \$8.00 this month. As a result, collector demand for quality silver coinage continues to

increase — but the supply of quality silver continues to diminish. New England buyers were offered virtually no choice specimens of rare silver at this month's shows. Fresh specimens of the larger denominations (dollars and half dollars) are becoming particularly difficult to find. Meanwhile, collectors and investors keep paying premium prices for high-grade silver. A 1926-D Standing Liberty Quarter in MS-65 with Full Head sold for \$2,750. An 1879 Seated Liberty Quarter in MS-67 was recently reported purchased for over \$2,000 — and a 1903-S Morgan Dollar cataloging at \$1,600 sold this month for well over \$7,000. Washington Quarters are also on the move and will bear watching over the next few weeks.

Flying Eagle Cents and Copper-Nickel Indian Head Cents seem to be the most active copper series this month. Both are making strong showings on the wholesale market with price increases on individual pieces ranging from \$25 to \$100, depending on condition. Choice Copper-Nickel Indians from 1860 to 1864 are particularly active and are bringing higher prices each week.

Most nickel series are still showing a lot of activity. Three Cent Nickels, Shield Nickels, Liberty Nickels and Buffalo Nickels are all showing gains — especially in choice condition. Commemorative coinage, on the other hand, is still very slow. It seems that the rapid and free selling of Commemoratives which we mentioned last month is still having a neutralizing effect on Commemorative prices.

I've been seeing ads in *The New Yorker* recently for coin jewelry. I think it's a shame that beautiful coins like Liberty Head Eagles and St. Gaudens Doubles get made into expensive trinkets. Isn't this illegal? I thought that it was against the law to mutilate U.S. currency. — A.L., Suffolk, VA.

It is only illegal to mutilate or alter U.S. coinage if such mutilation/alteration is performed for fraudulent purposes. For example, if someone alters the "3" on a 1923 Peace Dollar in order to pass it off as a 1928 Peace Dollar, he can be jailed for not more than 5 years and/or fined for not more than \$2,000. However, turning coinage into jewelry for the purpose of selling it as *jewelry* is perfectly legal.

And, in fairness to the jewelry industry, not all jewelers mutilate the coins that they use. By encasing coins in protective bezels, many jewelers have created beautiful numismatic pieces that any collector would be proud to own.

Two weeks ago, I was offered an 1887-O Morgan Dollar with what I thought were planchet laminations. The gentleman offering the coins told me I was wrong and that the streaks on the coin were called "struck through striking errors." I didn't know what he was talking about so I didn't buy the coin, but I wonder if I should have. — B.P., Park Firest, IL.

If the person you dealt with had a genuine "struck through strike" Morgan (and if the price was right), you probably should have purchased the coin. "Struck through strikes" are mint errors — and any Morgan with a mint error is a rare find. Most mint errors on Morgans were caught before the coins left the mint. (This was because Morgans are large coins, making inspection fairly simple.) Therefore, very few mint-impaired Morgans are currently owned by collectors.

The specific type of mint error you're referring to does indeed look like a planchet lamination at first

glance. However, "struck through strikes" are caused in a different manner and usually look different if closely inspected.

"Struck through strikes" occur when some object (a sliver of silver or piece of wire, for example) gets in-between the die and planchet during striking. When this happens, a depressed area, much like a planchet lamination, will appear on the finished coin. However, the surfaces of this depression will still retain some of the blank planchet's original smoothness. In addition, some part of the design can usually be seen within the depression. This is because the force of the strike is normally strong enough to transfer some image area through the obstruction and onto the planchet's surface.

How can you tell if a coin is authentic? I'm always leery about possible counterfeits. I almost bought a beautiful 1928 Peace Dollar last month but I saw some scratches near where the mintmark should be and I thought it might have been an altered 1928-S. — S.T., Atlanta, GA.

Detecting counterfeit coins requires a trained eye and years of experience. If you're ever in serious doubt about the authenticity of a coin, arrange to have it examined by a professional numismatist. If such an arrangement proves impossible (i.e. if the individual selling the coin refuses to have a third-party examine it), we suggest you pass the coin up — *unless the seller guarantees the authenticity of his material*. Barring a professional third-party examination or a guarantee of authenticity, there is really no way for the average collector to protect himself from counterfeit coins.

As for the Peace Dollar you passed up, you may have made a wise decision (although we'd have to see the coin to be sure). 1928 Peace Dollars have a heavy history of counterfeiting. Some counterfeit 1928's have been made from casting molds, some by altering the "3" on 1923 Peace Dollars and some, as you indicated, by removal of the "S" from the 1928-S. One way to spot an altered 1928-S is to examine its rim. A true 1928 Peace Dollar has a round, beveled rim. A 1928-S has a high, square-edged rim.

I attended a coin show at Cherry Hill, New Jersey on January 20th, and I was surprised to see a dealer having an 1858 Indian Head Cent. I could not locate that in my red Guide Book. Could you kindly explain it? — L.G., Philadelphia, PA.

Since regular-issue Indian Head Cents were not minted until 1859, the coin you saw was a pattern. (Patterns are coins struck by the mint for the sole purpose of experimenting with a coin design.) Several Indian Head patterns were struck in 1858 and, when found in good condition, they are all valuable collectors' items. The *Guide Book of United States Coins* would not list these patterns, however, since the book is a guide to regular issues only (with some exceptions). If you'd like a guide book to patterns, we suggest *United States Patterns, Experimental and Trial Pieces* by J. Hewitt Judd, M.D. It is published by Western Publishing Company of Racine, Wisconsin, and is now in its sixth edition.

According to an article I once read, the Louisiana Purchase Commemoratives were the first two gold commemoratives issued by the United States. I'd like to know which version came first; the Jefferson or the McKinley? — L.S., Detroit, MI.

Both versions of the Louisiana Purchase Commemorative were authorized on the same day: June 28, 1902 — and both were issued on the same day: April 30, 1904, at the opening of the Louisiana Purchase Exhibition. So, according to official records, neither version can claim to be the "first" U.S. gold commemorative.

However, some numismatic historians theorize that if one of the versions was *conceived* before the other, it was probably the Jefferson. Subscribers to this theory point out that the commemorative's authorization records mention only *one* LA Purchase coin. If only one coin was originally conceived, the Jefferson version would have been the logical choice. It was Jefferson who had actually purchased the Louisiana Territory. McKinley had had nothing to do with it.

Few numismatic possessions can rival gold type sets for sheer...

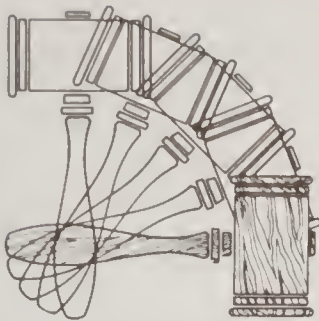

Beauty: These sets have been assembled with extreme care by New England's own expert numismatists. Each has been "balanced" so that its members are of uniform grade and appearance. Each contains high-quality gold specimens — not "extras" or "over-stocked" items. And each shines with that special lustre of finely preserved gold.

Desirability: Because properly balanced gold type sets are extremely difficult for the average collector to assemble, sets of this sort have always been in high demand. In fact, over the last 10 years, gold type sets have out-appreciated gold bullion by approximately 5% per year. And New England's gold type sets are particularly desirable — because they're backed by our special authenticity, grading and repurchase guarantees.

Value: Normally, New England type sets cost from \$3,620 to \$7,925. But **Inventory Selections** readers can now purchase them for only \$3,300 to \$6,750. (See the information above for specific prices.) However, only a limited number of these sets are currently available. And prices are subject to change as market conditions shift. If you've ever wanted to own a complete, expertly selected choice of rare U.S. gold, *now* is an excellent time to order.

Reserve Your New England Gold Type Set Today. Call our toll-free number (1-800-225-6794) (in Mass: 617-227-8800) and discuss these type sets with your New England account executive. Or write to New England and let us know you'd like to be called.

New England Rare Coin Auctions

from the desk of

LEE J. BELLISARIO, PRESIDENT

March 16, 1979

Dear New England customer:

As President of New England Rare Coin Auctions, I'd like to extend a special invitation to you, and to all New England customers, to take advantage of a truly exceptional consignment opportunity: the 1979 American Numismatic Association Auction.

Historically, the annual A.N.A. has always attracted a large, distinguished gathering of highly enthusiastic bidders. This, of course, has meant outstanding profits for consignors. This year, we feel that those profits will be even more outstanding. In fact, the deeper my involvement in this project, the more firmly I believe that this will be an excellent opportunity for you to realize top dollar for your collection.

Why do I feel so strongly about this particular auction? Because today's demand for quality coins is higher than ever. And because tremendous bidder enthusiasm for the 1979 A.N.A. has already been generated by New England's promotional efforts. Major newspaper coin columnists have begun covering our pre-A.N.A. activities. A.N.A. promotional advertisements and articles are appearing in The New Yorker, The Numismatist, Coin World, Trusts & Estates and many other important publications. A.N.A. lots will soon be previewed at major coin shows across the country. Through these media, we are attracting a larger, more financially upscale group of bidders to the A.N.A. than ever before.

Since you are a valued customer of New England, I would be especially proud to include your coins in the 1979 A.N.A. Auction. I hope you will call us at our toll-free number (1-800-225-6794, Extension #99) soon.

Sincerely,

Lee J. Bellisario
President

P.S. To ensure that you can take advantage of this exceptional consignment opportunity, I urge you to call today. The A.N.A. has limited the sale to only 3,000 lots.

EARLY QUARTER EAGLES

1796 NO STARS, VF-25.	19,500.00
1802, MS-63. Full blazing mint frost, with a hint of P-L surface on the reverse. Only the characteristic slight weakness of strike in the centers keeps us from calling this beautiful coin a gem. Absolutely NO adjustment marks Breen #4 which is considered by some to be an overdate. (If you follow this particular school of thought, this coin is approximately 3 times rarer than the 1802/1 overdate varieties.) All early quarter eagles are extremely rare and underrated in choice mint state. This is an excessively rare coin, in exceptional condition. It would grace the very finest collection.	17,500.00
1804 13 STARS. EF-40. Akers writes: "In my experience, this is the rarest quarter eagle in exceptional condition for the issue."	24,500.00

1821, AU-55, PROOFLIKE. An exceptionally sharp strike. Rare and popular first year of type coin. 6,950.00

1831, MS-66. An absolutely spectacular appearance. This is a vastly underpriced type coin in Gem condition. With true Gem classic head \$2½'s bringing \$5000 and up, a capped head \$2½ should easily be a \$20,000 coin! Certainly an astute purchase at today's price levels. Sliders abound at \$5000-\$7000, but we doubt that there is another true Gem available at any price. 13,500.00

LIBERTY HEAD QUARTER EAGLES

1840, MS-60. Semi-Prooflike. Extremely well struck for the date, although very slightly weak in the centers. One of the rarest of all quarter eagles in mint state, and an important first year of type coin. Akers writes: "The first year of the new Liberty Head type designed by Christian Gobrecht. Always very flatly struck on the head of Liberty, the stars, and on the eagle. Much more rare than the standard references and even the low mintage would indicate, particularly in grades above EF. I have never seen a strictly uncirculated piece or anything even really close. Very underrated." 1,950.00

1841-C, AU-58, FULL STRIKE. According to Akers: "This scarce date is always weakly struck, particularly on the head of Liberty, although most examples do have a wire rim. The specimens that I have seen all have a tiny C mintmark embedded in the feathers of the arrow. Because of the poor striking, many specimens appear more worn than they actually are. Nevertheless, strictly uncirculated specimens are very rare and I have seen only two or three pieces in that grade, the finest being an UNC-60+ coin that Paramount sold last year." This specimen has NO weakness of strike and lovely satin-like fields. 1,150.00

1869-S, AU-53. Lustrous and sharply struck. Akers writes: "Scarce as a date and very rare above EF. In fact, out of the 62 auction appearances only 10 pieces were graded AU or UNC by the catalogers. Most specimens I have seen were very bluntly struck and have relatively little detail on the hair around Liberty's face or on the eagle's right leg and neck." 795.00

Now there's a new volume of the other great coin reference.

Volume II of the "New England Auction Summary" is out!

In the recent past, smart bidders, consignors and investors have used the *New England Auction Summary* as an indispensable reference for tracking rare coin trends in the influential auction market. Volume I of the *Auction Summary* recorded comparative market data for New England auctions from November, 1975 through March, 1978. Now the new Volume II records rare coin trends at all 4 New England auctions throughout the landmark year of 1978.

What's in the "Auction Summary?"

Each annual *Auction Summary* lists by denomination and date coins sold at New England auctions. Within each date and mint mark, coins are ranked by condition, with sale dates and actual prices realized. This complete record of the year's influential New England auctions is a useful summary... and a tremendous aid in estimating what your coins might bring at auction!

How is the "Auction Summary" used?

The *Summary* gives a potential consignor or bidder a thumbnail sketch of a particular type or series of U.S. and foreign coins by condition. As a reference, the *Summary* is meant to be used — with specially designed, easy-to-read listings for instant reference. And the *Summary's* streamlined size fits conveniently in Red Book or auction catalog.

Why not just a list of Prices Realized?

A list of Prices Realized provides an adequate record of individual coins within a particular auction. But only the *New England Auction Summary* gives a comprehensive

Our Complete Numismatic Services

1. Guarantees

☐ Grading

We guarantee that coins purchased from New England Rare Coin Galleries are graded *accurately*. They will meet our high standards whenever you decide to sell them. If you sell them to us, we guarantee to purchase them at the same grade as they were when originally purchased from us.

Our grading system is patterned after that of the American Numismatic Association. Developed in 1978, the A.N.A. System is rapidly being adopted by virtually the entire professional numismatic community. Its designations are:

Poor.....	1
Fair.....	2
About Good.....	3
Good.....	4,5
Very Good.....	8,10
Fine.....	12,15
Very Fine.....	20,25,30,35
Extremely Fine.....	40,45
About Uncirculated.....	50,55,58
Mint State.....	60,63,65,67,69,70
Proof.....	60,63,65,67,69,70

Slash grades indicate obverse/reverse designations. For example, a grade of 65/63 describes a coin with an obverse of Mint State 65 and a reverse of Mint State 63.

☐ Authenticity

We further guarantee that all coins sold by New England Rare Coin Galleries are *authentic*. To protect our customers, and as proof of our certainty that no altered or counterfeit coin can escape our attention, we *guarantee to refund the full purchase price, plus 10% interest per year*, on any non-authentic coin acquired from us.

☐ Documentation

These guarantees are issued *in writing* with all coins purchased from New England Rare Coin Galleries. Each written guarantee is personally endorsed by *two* professional numismatists.

☐ Satisfaction

If, for any reason, you are not satisfied with your purchases, you may return them *within 30 days* of the date you received them for a *full refund or replacement*.

2. Expert Counseling

Use New England's toll-free number to consult with some of the most knowledgeable numismatists in America. Our expert staff is often sought by government agencies, museums and other coin dealers for advice on authenticity and value. We supply free information on placing coins in retirement plans, building rare coin portfolios and liquidating collections.

3. Selection

Our multi-million dollar inventory of U.S. rare coins is the largest in the world. New England buyers examine several million dollars' worth of coins each week to bring our customers the very best values.

4. Want Lists

Send your Want List to your New England account executive. He'll use our computerized facilities to help you locate any coin you desire. There is no charge for this service, and you are under no obligation to buy. You will, however, have the first opportunity to purchase each coin on your list that we locate.

5. Credit Cards

You can use your Master Charge, VISA or American Express cards to purchase rare coins from New England. Simply fill in the appropriate spaces on your order form.

6. Deferred Payment

Our Deferred Payment Plan makes financing your rare coin purchases convenient. The plan is easy: 25% down payment; 25% each 30 days for a maximum of 90 days; and absolutely no interest charges! \$200 is the minimum order allowed under the plan. If you'd like more information, call our toll-free number.

7. Approval Accounts

Our Approval Account Service allows you to personally examine coins *before* you purchase them. Send for an Approval Account Application. If you qualify, you can have coins sent to you with a simple phone call.

8. Auctions

If you're thinking of consigning your collection to auction, consider New England Rare Coin Auctions. We offer *effective* professional services. In fact, we've been selected to conduct the 1979 A.N.A. Auction. Our toll-free Auction Line number is: 1-800-225-6794, Extension #99.

9. Purchasing

If you prefer to sell your coins directly, send them insured and by registered mail to New England. We'll reimburse you for postage costs. Or call our Purchasing Manager, Russell Vaughn for more information. Our buying prices are the highest in the industry.

10. Brochures

New England has several informational brochures which we'll send to you *free* upon request. They include:

- ☐ Rare Coins: The Outstanding Investment
- ☐ Price & Demand in the Numismatic Marketplace
- ☐ Questions & Answers on Consigning to Auction
- ☐ Coins & Keoghs

11. Toll-free Wats Line

Contacting New England is *free*. Use our toll-free WATS line: 1-800-225-6794 (in Massachusetts, please call: 617-227-8800). We'll be happy to assist you in any way we can.
